With the Electric Machine by
Drs. Martin & Martin
Room 6, Leader Building

Your Attention

If you are a householder, is
called to the money saving,
up-to-date electrical devices
that we can place in your
home. For instance: A motor
to run the sewing machine
—saves the back breaking
work, makes the machine run
more smoothly, as long as you
want, and at a cost that is
really insignificant.
Let us demonstrate one of
these small motors—show you
how easily attached and
handled.
